WEATHER PROBABILITIES.—For this section partly cloudy tonight and Wednesday; light northeasterly winds.

STRUCK BY AN OFFICER .- Five tramps engaged in a free fight shortly or 5 o'clock yesterday afterseon in H. Brawner's yard at the Stene Bridge. Policemen Knight, Travers bridge. Policemen Knight, Travers and Young set out in a wagon for the scene and upon their arrival they arrested all of the participants. Policeman Travers had in custody a man giving his name as Frank Sherman, who had attempted to resist arrest. The officer traved him with his patit his patit his part awards. officer tapped him with his baton.
Later on King street, between Columbus and Alfred, Policeman Travers
cams Sherman made at attempt to escape. The policeman struck him a stunning blow with his baton, which knocked the man to the ground. The Mrs. Arthur Elgin, in Leesburg.

DEAGGED BY A TRAIN.—People on King street shortly before nine o'clock this morning were somewhat alarmed Mrs. J. V. Davis.

Mrs. Winchell, is visiting her sunt, Mrs. J. V. Davis.

Mrs. J. V. Davis.

Mrs. Courtland Lukens has gone to Buffalo, N. Y., to visit the exposition. at seeing a youth named Norman Evans clinging to the railing of an electric train with his feet scraping the cobble stones. He was carried in that position from Washington to Royal street, and when the train figally stopped he relaxed his hold upon the railing and hobbled on his knees. It was at first supposed that he had been seriously hurt, but he soon regained his feet, when it was seen that apart from some scratches he was not materially injured. When questioned he said he had attempted to alight from the car and had fallen, and that he had caught the hand railing. The cars in the meantime began to go too fast for him to let go with safety and he was compelled to hold on while his feet trailed on the cobble stones. The fronts of both shoes from the toes up were worn almost off by the friction produced. It is thought by some that he attempted to board the train and missed his footing, and that while his hands clutched the railing his feet dragged the street.

DIED FROM HIS INJURIES .- Thomas Patterson, the brakemen who fell be-tween the cars of a moving train of the Washington and Ohio Railroad yes!er-Washington and Ohio Railroad yes!erday morning, died at the Infirmary after midnight. Apart from the crushing of his foot Patterson had sustained internal injuries. After the amputation of his foot he gradually lapsed into unconsciousness in which condition he remained until death ensued. The remains of the unfortunate man will be shipped to his home in Prince William for interment. He was a son of Mr. shipped to his home in Prince William for interment. He was a son of Mr. James Patterson, who lives near Woodbridge, and had been in Alexandria about four months.

The southern peach crop is drawing to a close. The season has been a successful one, about fitteen hundred earloads having passed through this city on their way to northern markets during the past few weeks.

A WIFE CHARGES CRUELTY .- Mary Lynham yesterday filed suit in shington for divorce from her husband, Waddie D. Lynham, on the ground of cruelty. She also alleges that on July 19 last he threatened to kill her. She siso states that he has frequently assaulted her and has treated her with great cruely for several years. The parties were married in Washington on May 4, 1878, and have seven children. Lynham is known in this city, where he has relatives.

CLIPPING THE TRHES .- The Pennsylvania Railroad Company is clipping branches from trees on Henry street, between Prince and Duke, in order that they may not brush against trains as they pass through the city. The grass on the east side of the track beween King and Prince is shout eighteen inches high in some places, and it is suggested that the company may be compelled to mow in the near future, run the risk of setting it on fire later on.

DAMP WHEAT.-Commission merchants are still complaining of the bad condition of most of the wheat received here from the surrounding country. Dry wheat, they say, can be easily moved, while that in a damp condition gives much trouble. The receipts are increasing daily, and farmers who wish to find a ready market for their cereals will consult their interests by seeing that they are sent to the merchants in a proper condition.

WASHINGTON, D. C. TO THE FARMERS OF ALEXAN-

DRIA COUNTY. The Hon, G. W. Koiner, Commis sioner of Agriculture, wants to get the best specimens of all the products of your county to put in the museum that is being established in Richmond in connection with the department of agriculture. The object of this is to have the products of each county in the State represedted by a permanent ex-hibit in the mus-um, so that pros-pective purchasers or settlers may see and compare the products of the dif-ferent counties and thereby decide in what section to look for a location. You can readily see the importance of making the best exhibit possible for your county, as much of its future

presperity may depend on this exhibit.

If each farmer will act as though the whole thing depends on him, and as many specimens as possible and let each one be the best of its kind, we will have an exhibit that will be a credit to

your county.
Of the grasses, clovers, timothy, or chard, millet, etc., the specimens should be pulled or dug up, the roots washed and tied in straight bunches, about as much as a man can grip in one hand, and dried in the shade.

Of the grains—half gallon each of wheat, oats, rye, etc., and half dozen

ears of corn.

Of dried beans, peas soja beans, etc., about one quart of each.

Of Irish and sweet polatoes, turnips,

sugar beets, onlone, etc.—half dcz-n specimens of each. Of the fruits, apples, peaches, poire, plumbs, quinces, grapes, etc.—half dezen to one dezen each.

Of minerals, about two to ten pounds

put in a strong bag.

All fruit should be picked before it is over ripe, handled carefully, and each variety packed separately with paper or cotton in a small box. The name and address of the sender should. be plainly marked on all packages, resolution condemning the proposal of the constitutional convention not to Hon. G. W. Kolner, commissioner of ag-riculture, and sent by express prepaid. If several farmers would put their specimens together it will save expenses. If you do not get the annual report of the commissioner of agriculture and the bulleting giving the analysts. ture and the bulletins giving the analysis and relative value of all the fertilizers sold in the State, send your name and address on a postal card to Hon. G. W. Koiner or myself. They will be sent you free of charge. Very respectfully, W. C. WAITE, Inspector of Fertilizers.
